

## 12 Excellent Things You Can Do With Your Chapter

1. **Plan a service learning project!** Let the ideas come from the students. Focus on their interests and majors. This is a good way to put what they have learned in the classroom to use and gain contacts/references from professionals in their field.
2. **Get your chapter recognized!** Take those service learning projects and apply for NTHS Silver Star of Excellence Award. See the website for details.
3. **Take the information highway!** Have your students design a website for your NTHS chapter and have us link it to our national website.
4. **Network!** Get your members to career fairs, Chamber of Commerce networking events, and other elbow rubbing opportunities.
5. **Boost your enrollment!** Hold a membership drive at your school. Have your students brainstorm ways to get the word out! If your school has a marketing program offer this up as a class project and extra credit.
6. **Take the show on the road!** Visit area schools that don't have a chapter yet and help them get started.
7. **Say Cheese!** Start a chapter scrapbook documenting your members and events
8. **Get down to business!** Have NTHS leaders contact local business and industry to develop partnerships and/or sponsorship.
9. **Hold leadership training!** Partner up with other clubs and organizations within your school, or NTHS chapters at other high schools or local colleges.
10. **Create a mentoring program.** There are lots of ways to do this! It could be peer to peer within the school, matching high school and community college students, or students and business and industry partners.
11. **Have a blast with your past!** Host an alumni event or invite your alumni to be ongoing participants in your ceremonies and events.
12. **Raise some dough!** Establish a scholarship fund at your school for NTHS members and have the chapter plan fundraisers to help it grow.
